## What are the risks of investing?

Risk indicator for the Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Fund are charged fund charges. In the year to 31 March 2019 these were:

	% of net asset value
<b>Total fund charges</b>	1.60%
Which are made up of:	
<b>Total management and administration charges</b>	0.00%
Including:	
Manager's basic fee	1.60%
Other management and administration charges	0.00%
Total performance-based fees	0.00%
<b>Other Charges</b>	
Other fees and costs	0.00%

There are currently no transaction individual action fees (e.g. establishment, contribution, withdrawal, fund switching) or other fees charged.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

At the end of the year, Rachel received a return after fund charges and tax were deducted of \$929.61 (that's 9.30% of her initial \$10,000). Rachel did not pay any other charges.
